

# HOME on Hillside

Lauralee Riley

In winter, home is cozy, warm, and snug.

When someone enters-jacket and snow  
pants. Sipping hot cocoa in a St. Nicholas  
mug!

Home smells good with flowers in spring.

Home holds rakes and my gardening things!

Home is covered in leaves in the fall.

I jump in the leaves and I'm covered in them all!

One day I sit on the couch with my pets all near  
me. I read a book and start humming.

My cat and dog doze with a snore.

Then suddenly a frightening bark ruins it all.

Then I stand up to peek out the door.

I find the mailman doing his thing.

I look at the dog who looks as if she was the guard of a  
king. So I grab the mail and...

I realize my cat is gone!

I look out the window and say under my breath,

"That sneak has gone out on the lawn!"

I grab the leash and I'm out again.

I find the cat glaring at the neighbors hen.

But my pets aren't the most important thing about home...

The most important thing about home is...

**Family!**
